

WHAT DO PEOPLE THINK **ABOUT smokefree casinos?**

75%
of casino visitors **favor**
smokefree casinos

Nearly half
(45.4%) of **SMOKERS favor**
smokefree casinos

fact:

There are nearly **800** 100% smokefree state-regulated and tribal gambling facilities.

fact:

MILLIONS of casino visitors and **hundreds of thousands** of casino employees are exposed to secondhand smoke.

fact:

Smoking prevalence among casino patrons is similar to smoking prevalence among adults overall.

fact:

Air quality and biomarker studies, including studies conducted in casinos, have found that partial smoking restrictions do not prevent secondhand smoke from infiltrating nonsmoking areas.

There is public support for smokefree gaming.

There is no risk-free level of secondhand smoke exposure.

87% of people in the U.S. don't smoke.

Ventilation systems do not create safe air.

smokefree policies save lives
